Warp & Weft

The organic-chic **Highlands** collection features oversize, abstracted leaves that might have fallen on a sun-dappled forest floor. The carpets are made using a silk-tweeding technique, which interweaves Indian mulberry silk with unbleached Himalayan wool. Both slightly shimmering designs come in four colorways, each representing a season; hello, autumn! 212-481-4949; warpandweft.com. **circle 638**

Gan Rugs by Gandia Blasco

Proof the boob tube can rise above mind candy: The **Lepark** rug, from the Spanish design group Enblanc, is an op-art spin on a pixilated TV screen. Rendered in wool on a cotton backing, it is available in two sizes: 67 by 95 inches and 80 by 128. 212-421-6701; ganrugs.com. **circle 639**

Apavisa

The faux-patinated surface textures that distinguish the **Evolution** full-body porcelain tile collection channel oxidized metals and concrete formwork. Offered in five neutral hues and varying textures; sizes include 12 by 24 inches, 12- and 24-inch squares, and 24 by 47 inches, plus custom dimensions. Through Tile of Spain, 305-446-4387; spaintiles.info. **circle 640**

ABC Carpet & Home

Something old, something new: The muted jewel tones that animate the **Laguna** carpet's timeless paisley motif are achieved with decidedly au courant recycled, overdyed sari silk. 646-602-3557; abchome.com. **circle 641**

USF Contract

Sturdy cork flooring becomes that much more so with **Cork Décor**, a collection of tiles treated with Endura AR + Nano. Applied to the surface of vinyl-clad cork core, the acrylic nanobead lacquer finish rebuffs scratches, scuffs, stains, and even slips (a plus for klutzes).
